

Success By 6 Week is a fun-filled week of events and activities designed with the youngest members of our community in mind.

This annual event aims to increase public awareness about the importance of early childhood learning and care. Officially proclaimed by the City of Kingston, and the counties of Frontenac and Lennox & Addington, Success By 6 Week provides opportunities for families, caregivers, friends and neighbours to "take the time and make the moments matter" with the young children in their lives.

During this week, from May 3rd to 11th, there are a number of free and low-cost activities that encourage simple family fun. Free movies and swims, fun & interactive activities at local museums, celebrity story time readings, yoga for tots and much more.

The time from conception to age 6 is a period of crucial development. This is the period when a child's physical growth, emotional attachments, attitudes, behaviours, language and motor skills develop. Success By 6 reminds people in our community about the importance of early childhood learning and making children a priority in our community.
