Larissa's Story: Youth Homelessness

I have been without a home since I was 16, I'm 20 now. I was sexually and physically abused by both parents since I was young. I finally gave up one night and started talking back so they kicked me out that night. Somebody told me there was a youth shelter in Kingston so the next morning I bought a train ticket and decided to check it out.

There I finished high school, and they told me about RISE. Where I am now, you get support, but you also get to live on your own and see what it's like. It's safe. I want to get my own apartment someday. I just finished a placement to get ready for job interviews. I'm planning to go to university.

Youth homelessness is a problem in Kingston. Not everybody notices how hard it is to be homeless. Many youth don't yet know how to act like adults or how they should be treated. I've learned that it's a bad day, not a bad life. You can make the changes you want to make if you focus on them. When you decide you're ready, there are people who want to help.

United Way
Kingston, Frontenac,
Lennox and Addington

Brian's Story: Youth Homelessness

Brian has lived in poverty his entire life. As a young boy, Brian had to struggle to survive, living in unsafe environments, not being able to properly feed himself every day.

Living in poverty affects you, especially at a young age. Brian lived in a very unstable environment with his mother, which in turn, led him to befriend people who were there to bring him down. He started doing drugs as a teenager and drinking excessively. At the age of 16, Brian was homeless, addicted to drugs and alcohol, and had quit school.

He came across a program that was suggested to him by a friend. Youth Services Program at Home Base Housing helps homeless and troubled youth turn their lives around. Brian was accepted into the program. He has been clean off drugs and alcohol for 4 years, lives in his own place, and started working full time. Without the help and funding from the United Way to support his transition through Home Base Housing and into his newly formed life, Brian believes that he would never have been able to achieve these successes.
